TO THE CHAIRMAN AND MEMBERS OF THE RURAL DISTRICT
COUNCIL OF MARSHLAND

Mr. Chairman and Gentlemen,

I have the pleasure in submitting for your consideration my Annual Report for the year ending the 31st December, 1949. A report by your Senior Sanitary Inspector and Surveyor is also included herein.

The vital statistics for the year in question may be regarded as satisfactory.

The total number of infectious diseases notified during the year remains about the same as for 1948. There has been a diminution in the number of cases of Measles (35) but an increase of 13 in the number of Scarlet Fever cases.

There have again been no cases of Diphtheria. Section B dealing with the provisions of the Health Services is given in fuller detail, which I trust will be helpful and informative.

I wish to express my gratitude for the support given me by the members of the Public Health Committee, the Clerk to the Council and the Officers of my department.

I have the honour to be,

Your obedient servant,

C. T. DARWENT,

Medical Officer of Health.

Section C.

PREVALENCE OF AND CONTROL OVER INFECTIOUS AND OTHER DISEASES.

SMALL POX.

No cases were notified.

SCARLET FEVER.

Thirty cases were notified during the year as compared with 25 in 1948.

Twenty-six cases were removed to the Isolation Hospital and the vacated premises were disinfected.

DIPHTHERIA.

I am happy to report that for the third consecutive year **no** case has been notified.

DIPHTHERIA IMMUNISATION.

This is carried out chiefly by the family doctor, but a small percentage of children are immunised at the Infant Welfare Centres.

The total number immunised since the inception of the scheme and up to the 31st December, 1949 :

Child population {	0—4 years	5—14 years
3953	695	2059

Total immunised 2754 = 69.6%

							Total
Under 1	1 yr.	2 yrs.	3 yrs.	4 yrs.	5 to 9 yrs.	10 to 14 yrs.	Under 15
14	105	238	182	156	967	1092	2754

PUERPERAL PYREXIA.

Only one case was notified during the year. The recovery was uneventful.

PRIMARY PNEUMONIA.

Fourteen cases were notified. There were four deaths assigned to this cause.

MEASLES.

Measles, in scattered epidemic form, accounted for 178 cases against 213 cases in 1948. The peak age period was 5 years—in which there were 80 cases and the highest incidence occurred in the months of January and December.

There were no deaths assigned to this disease.

WHOOPIING COUGH.

Thirty-five cases were notified—an increase of 3 over the preceding year.

TUBERCULOSIS.

The following table indicates the incidence of Tuberculosis in the District.

1949	Tuberculosis all forms			Rate per 1,000 population M.R.D.	County rate per 1,000 population
	Male	Female	Total		
	5	4	9		
				0.50	0.68

CLOSURE OF SCHOOLS.

Tilney St. Lawrence C.P. School was closed from the 30th November to the 21st December, owing to the heavy incidence of Measles throughout the Junior classes.

ERADICATION OF BED BUGS.

No cases have been reported or found during the year.

MOVEABLE DWELLINGS.

No applications were received and no licences issued by the Council under Section 269 of the Public Health Act, 1936.

RATS AND MICE (DESTRUCTION) ACT, 1919.

The Council do not employ the services of a Rat Catcher. Cases of infestation, when found and reported, are referred to the County of Norfolk Agricultural Executive Committee who arrange for the necessary disinfestation.

PUBLIC CLEANSING.

Dry refuse is collected by the Council fortnightly and all houses except those in isolated places, where disposal can be carried out privately, are served. The number of collections made during the year is estimated to be 80,670.

Roads and streets are controlled by the Norfolk County Council and road cleansing is therefore carried out by the County Council staff.

SEASONAL WORKERS.

There are three Agricultural Holiday Camps in the District controlled by the County Agricultural Executive Committee and periodical inspections have been made of these camps during the open season.

There are also privately owned fruit pickers' bunks in the district and these have been periodically inspected and controlled by Byelaws made by the Council. Moveable dwellings are also controlled on privately owned land under the Public Health Act, 1936, and are moved within the prescribed period.

Section D—HOUSING

During 1949 new Council Housing was completed and occupied in the following parishes :

Development of estates for permanent houses was continued in the following parishes :—

Emneth, Outwell, Tilney St. Lawrence, Tilney All Saints, West Walton, Terrington St. Clement, Upwell (Lakesend) and Marshland St. James.

PRIVATE ENTERPRISE.

Nineteen Licences were granted under the Civil Building Regulations for the erection of dwellings by Private Enterprise and eleven consents were received from the Ministry of Health for dwellings to be erected in conjunction with agricultural buildings under the Housing (Financial and Miscellaneous Provisions) Act, 1946. Nine dwellings were completed and occupied.

REQUISITIONED PROPERTIES.

The Council still held 11 properties at the close of the year which were requisitioned during the National Emergency. No other dwellings were requisitioned during the year.

REPAIRS AND IMPROVEMENTS.

Owing to restrictions in building operations few major improvements were carried out. In 19 cases privy vaults and pail closets were converted to W.C.'s with cesspools or septic tanks.

During the year the "free limit" for building work without licence was raised to £100 and a large number of essential repairs were carried out. 26 licences were issued for major repairs and improvements.

INSPECTION AND SUPERVISION OF FOOD.

MILK AND DAIRIES ORDER 1926 and

MILK AND DAIRIES REGULATIONS 1949.

All dairies and cowsheds were periodically inspected until 30th September, 1949.

On 1st October, 1949, the Milk and Dairies Regulations, 1949, made under the Food and Drugs (Milk and Dairies) Act, 1944, came into operation and transferred the control of all milk producers to the Minister of Agriculture and Fisheries.

MILK SAMPLING.

All sampling is carried out by the County Health Department.

FOOD PREMISES.

Ten Bakehouses registered in the district were inspected at 6 monthly intervals.

MEAT AND FOOD INSPECTION.

All meat is slaughtered at Central Abbatoirs at King's Lynn and Wisbech.

Eight investigations were made into cases of alleged unsound food and in all cases it was surrendered voluntarily and condemned, as follows :

Beef, home killed	97 lbs.
Bacon	23 lbs.
Cheese	32 lbs.

REPORT OF SENIOR SANITARY INSPECTOR & SURVEYOR. SANITARY CIRCUMSTANCES OF THE DISTRICT.

WATER SUPPLY.

The district is served with piped water supply to the villages by two Schemes. The Northern area including the villages of Clenchwarton, Terrington St. Clement, Tilney All Saints, Walpole St. Andrew and part Walpole St. Peter is served by the Council's mains from a supply afforded by the King's Lynn Borough Council. The villages of Upwell, Outwell, Emneth, Walsoken, West Walton, Marshland St. James, Tilney St. Lawrence and part of Walpole St. Peter are served by mains controlled by the Wisbech Water Works Co. Where no piped supply is available in the more isolated parts of Parishes, the only supply is rainwater collected from roofs. The number of shallow wells in the district is negligible.

During the year contractors were appointed for the work of laying extensions to water mains in the parishes of Clenchwarton, Terrington St. Clement, Walpole St. Andrew, Walpole St. Peter and part of the district known as Central Wingland.

The Wisbech Water Works Company commenced work on the scheme of extensions approved by the Ministry of Health in their statutory area of supply.

SEWAGE DISPOSAL—DRAINAGE AND SEWERAGE.

No public sewers exist. Where an adequate water supply is available many conversions of vaults and pail closets to water closets have occurred with disposal by cesspools and septic tanks. Privy vaults are generally in use by the cottage properties and agricultural dwellings.

In November, 1949, the Council's new cesspool emptying vehicle was delivered and a service commenced which made available to residents facilities for the emptying of cesspools and privy vaults. During the remaining two months of the year, 80 cesspools and 82 privy vaults were emptied.

RIVER POLLUTION PREVENTION ACTS.

The whole district is covered and controlled by the two Catchment Boards of the Nene and Ouse.
